Safety Matters

It's your assurance that your contractor is protecting your interests and will deliver your job in the safest manner possible.

General Construction

Design-Build

Construction Management

2010 Winner Governor's Award for Safety Excellence

The Governor's Award for Safety Excellence is a highly competitive award which recognizes successful employer-employee safety programs that produce tangible safety improvements.

James Construction is honored to be a 2010 award recipient and one of only three construction companies across Pennsylvania to win this award since it began in 1997.

Safety is our #1 Priority

James has developed a comprehensive, proactive safety program which focuses on

- **strategic safety planning**
- **comprehensive safety training**
- **vigorous safety enforcement**
- **clear communication**
- **vigilant oversight**

To facilitate the administration of our safety program on all projects, we perform weekly job site inspections, weekly and monthly safety trainings and review our company-wide safety rules with all our subcontractors.

Winning the Governor's Award for Safety Excellence in an industry such as general construction is a testament to our employees' dedication to safe practices and a genuine reminder to our clients that we are committed to providing them the assurance of a safe and structured project.
